

Rewinders

loop controlled rewinders

ASR 320 D

Link Label's rewinders are designed to work in line with their printing machines, hot stamping machines or die cutting machines.

Furthermore they also can operate with each loop outfeed semirotary machine of other suppliers.

A selection of different models with varying performance features is available:

RH and RHW

Rewind unit with one rewind shaft for label rolls resp. with one rewind shaft for label rolls and waste removing unit with waste rewind shaft.

ASR and ASR D

Rewind unit with slitter, waste removing unit with waste rewind shaft and one or two rewind shafts for label rolls.

ASR G

Rewind unit with slitter, waste removing unit with waste rewind shaft. one rewind shaft for big label rolls and a manual turret with two shafts for small label rolls.

RHW

Rewinders

loop controlled rewinders

Features

all models

- ▶ loop controlled speed
- ▶ exchangeable air shafts in different sizes (76 mm standard)
- ▶ adjustable tension control
- ▶ automatic stop preset counter
- ▶ Reversible rewind direction, enabling 'label in / label out' facility
- ▶ integrated trim exhauster (except RH / RH W)

modell RH

- ▶ 1 rewind shaft for rolls up to diameter 500 mm
- ▶ web width 330 and 400 mm

modell RH W

- ▶ 1 rewind shaft for rolls up to diameter 500 mm
- ▶ waste removing unit and waste rewind shaft
- ▶ web width 330 and 400 mm

model ASR

- ▶ 1 rewind shaft for rolls up to diameter 700 mm
- ▶ waste removing unit and waste rewind shaft
- ▶ slitting unit with 6 Sets upper and bottom knives
- ▶ web width 330 and 400 mm

model ASR D

- ▶ 2 rewind shafts for rolls up to diameter 700 mm
- ▶ waste removing unit and waste rewind shaft
- ▶ slitting unit with 6 Sets upper and bottom knives
- ▶ web width 330 and 400 mm

model ASR G

- ▶ 1 rewind shaft for big rolls up to diameter 700 mm
- ▶ 2 rewind shafts for semi automatic roll change over for rolls up to diameter 400 mm.
- ▶ waste removing unit and waste rewind shaft
- ▶ fits to every printing machine,
- speed synchronisation with loop control
- ▶ glue warming heater plate facilitates waste removing
- ▶ slitting unit with 6 Sets upper and bottom knives
- easy access pull out design for adjusting and exchanging knives
- ▶ web width 330 mm
